

2 PART DUAL FUEL NUTRIENT SYSTEM

Drain To Waste / Recirculating

This feed program can be used with all growing applications.

Whether you're a novice cultivator with your first grow tent or a master grower producing on a commercial scale, our 2 Part Dual Fuel base nutrient system gives you the ability to fine-tune your garden to ensure you get bigger and better yields!

DUAL FUEL FEED PROGRAM

- DUAL FUEL 1
- DUAL FUEL 2
- ⊕ VITATHRIVE
- ⊕ REZIN
- ⊕ MASSIVE
- ⊕ LIQUID WEIGHT

ICON LEGEND

The GreenPlanet Nutrients Icon legend aims to help you find the right nutrients for your garden.

Fertilizer Type	Nutrient Type	Growth Stage
 Liquid	 Base	 Vegetative
 Dry	 Additive	 Flowering
	 Maintenance	

For Use In			
 Hydro	 Coco	 Soil / Soilless	 CLF Program

HOW DOES IT WORK?

Dual Fuel is a 2 part formula used in a 1:1 ratio throughout the entire crop cycle, making it ideal for commercial growers with injector systems and novice growers wanting to bring more simplicity to their grow. Less is more with this highly concentrated formula which reduces the volume of nutrients needed to finish a crop. Together **Dual Fuel 1 & 2** result in rich green leaves in the vegetative stage followed by big and beautiful blooms in the flowering stage.

Dual Fuel 1 has higher levels of nitrogen (N) and calcium (Ca) to help promote vigorous growth and the development of rich green foliage.
NPK 5-0-1

Dual Fuel 2 has higher levels of phosphorus (P) and potassium (K) to help promote photosynthesis, healthy root development, and nutrient mobility for larger yields.
NPK 0-3-6

RECOMMENDED FEED PROGRAM ADDITIVES

Liquid Weight is a supplement blend of simple and complex carbohydrates that support the plant and beneficial microbial life in the root zone. This leads to an increase in the absorption of essential nutrients that help develop impressive aromatic flowers and fruits.

Massive Bloom Formulation is our premier flowering additive formulated with all of the necessary microelements required to achieve an increase in flower size as well as providing several additional beneficial properties.
NPK 1-2-3

Rezin is our flowering additive formulated to enhance the natural processes within flowering plants that produce flavour and aroma. This results in high-quality flowers come time for harvest.

Vitathrive Propagation Solution is our comprehensive additive blend of vitamins and minerals formulated for the vegetative stage of plant growth. It is designed to reinforce plant health and support essential functions.
NPK 0-0-1

Quality Focused. Results Based.

2 PART DUAL FUEL FEED PROGRAM

DUAL FUEL 1 - DUAL FUEL 2
LIQUID WEIGHT + MASSIVE + REZIN + VITATHRIVE
